

GENERAL BOOKING FAQS

Is there a minimum booking amount?

Yes, we have a \$500 minimum rate per booking (including booking and coordinator fees).

Is there a booking fee added to the final artist/performer rate?

Yes, to help cover overhead and administrative costs involved in proposals, contracting, costuming, and rehearsals, all client invoices will include a booking fee in addition to the artist rate(s). We also require an onsite coordinator for event bookings.

What is an onsite coordinator and why are they required for events?

Onsite coordinators act as the point person and talent manager for performers at events. They run safety, crowd control, scheduling, costuming, load in and load out, sound/music coordination, cues, and many other tasks necessary to keep the show running smoothly. For this reason, we require at least one coordinator for all event bookings. Rates for coordinators vary depending on the length of the event and the number of performers booked, but range between \$300-\$1000 per event.

Do you require a deposit?

Yes, we require a 50% deposit to hold performers and coordinators. The final amount is due on or before the day of the performance, prior to set up and event start time.

What payment types do you accept?

We accept most forms of EFT (Zelle, PayPal, CashApp, Venmo). We can also process credit cards for a fee of 2.9% per transaction. Checks and cash are also acceptable forms of payment. Any fees associated with payment are the client's responsibility.

Do you perform at children's parties, nonprofit events, or community events?

It depends. If the entertainment budget meets the booking minimum, we will perform at these types of events. Please note, we do not discount rates for nonprofit events. However, we understand that not every event has a high budget for entertainment. There are several fantastic traditional circus companies and training facilities in Atlanta that provide performers for backyard circus or community events; we would be more than happy to give referrals for them if we are out of your current budget! Please contact us if you would like a referral.

I am shooting a music video and need cirque performers. Are set rates the same as hourly rates?

No, day rates for time spent on set are not booked the same as hourly performance rates. Day rates for shooting depend on numerous factors, including whether it is a SAG-AFTRA production or not, if it will be a half day or full day (or more), and what type of act you need. Please contact us to discuss the specifics of the production.

What are the venue and rigging requirements for aerial performance?

The ceiling height must be a minimum of 12 ft [3.5 m] for aerial sling and 15 ft [4.5 m] for aerial silks. 20 ft [6 m] or higher is preferred for aerial silks. Our performers are qualified to safely rig most aerial equipment; however, some venues and situations require hiring a certified rigger (the client must check with the venue about specific rigging requirements). The rig point must hold a minimum of 2000 lbs [900 kg] of dynamic force for aerial performance. A 6 ft [2 m] diameter clearance from the rig point to the floor is required (free of tables, guests, catering, drapery, décor, etc). Clearance exceptions are made for aerial bartending/champagne pouring. Client or venue must provide a lift, ladder, catwalk access, or other means to safely reach proposed rig points for both set up and break down.

Do you provide sound systems, DJs, lighting, or décor?

Not at this time, but we can refer you to several excellent event companies that specialize in these services. Please contact us if you would like a referral.
